

PROJ. SECURITY OFFICER

The Project Director and I have discussed the implications of the FOG move to Del Rio. I am afraid we are forced to accept the risk. We are in a weak position to try to force the FOG to move a unit to Eielson after we have approved their going to Del Rio. We must emphasize through your contact with security members of the FOG the fact that the U-2 USAF program at Del Rio will be the Weather Recon unit of their Strategic Recon unit and will be handled similarly to the other weather units tied in with the 3rd Weather Wing at Omaha.
